NEWS FOR U OF M EXTENSION MASTER GARDENER VOLUNTEERS IN HENNEPIN COUNTY

March 2017

*"I grow plants for many reasons: to please my soul, to challenge the elements or to challenge my patience, for novelty or for nostalgia, but mostly for the joy in seeing them grow".*  
- David Hobson

Your neighborhood **Rusty Patched Bumblebee** (*Bombus affinis*) is about to enter the endangered category. This is a delay from the original January 21<sup>st</sup> listing.

We can be proactive in our efforts and it would be well worth our efforts to study up on this lovely creature.

"The endangered designation means that the rusty patched bumble bee is in danger of becoming extinct throughout all or a portion of its range. U.S. Fish and Wild Life Service Midwest Regional Director, Tom Melius said, "Our top priority is to act quickly to prevent extinction of the rusty patched bumble bee. Listing the bee as endangered will help us mobilize partners and focus resources on finding ways right now to stop the decline."

## COMMITTEE UPDATES

### What's Happening with the Garden Tour?

Planning for this year's Hennepin County Master Gardener Program Learning Garden Tour is going very well. So far, we are ahead of schedule with marketing and promotion; and we are now in the process of lining up the Education Stations and other activities that will be happening at each of the 8 featured gardens. We've got a lot of fun stuff planned for this 10<sup>th</sup> anniversary tour. We hope you'll consider volunteering to help out. The tour will be held rain or shine on **Saturday, July 8 from 9 a.m. to 4 p.m.** and a list of volunteer positions (along with descriptions) will be posted on Sign-Up Genius.

There is **one very important job that we need to fill ASAP** and that is for a logistics person. Doc Czypinski has led the logistics team for years and still plans to help out, but since he is now chairing the garden tour committee, we could use another volunteer. Logistics mainly involves delivering supplies and other items to each site prior to the tour, as well as on tour day. To learn more, please contact

Doc at: [doc.czypinski@walkerart.org](mailto:doc.czypinski@walkerart.org)

### What's Happening with the Plant Sale?

**The date for the Plant Sale this year is Saturday, May 20<sup>th</sup>**

What a weird winter. It was 60+ degrees on Tuesday, February 21, and we are possibly in line to get 8-12" of snow on Friday, February 24. The warm weather has me itching to pull back my protective layer of leaves and see what might have survived another Minnesota winter (wimpy though it has been). When you are certain it's safe to uncover your gardens and start 'playing in the dirt' in earnest, please consider sharing parts of your garden with the 2017 plant sale; even small divisions enhance our sale.

Based on past sales, here is a short list of desired plants (a more holistic list will be published in the near future): colorful varieties of astilbe, brunnera, all varieties of bleeding heart, bloodroot, sensitive and painted ferns, heuchera, Jack-in-the-Pulpit, ligularia, meadow rue, phlox, turtle head, named hosta, named asters, cone flowers, named day lilies, named iris (bearded and Siberian), named monarda, peonies, named sedum, named grasses, ajuga, lamium, and many other sun and shade plants for pollinators, and natives of almost any variety.

The plant sale committee is in the process of setting up digs and potting days and plans to have dates available on Sign Up Genius in the very near future.

## What's Happening in Youth Education?

**EMG-HC Youth Education Workshop • Saturday, March 11, 2017**

The Youth Ed Workshop is fast approaching! We invite you to come learn more about EMG-HC Youth Ed programming and expand your youth mentoring and teaching experiences. Don't have all day? No problem! This training is presented in two parts: The morning is dedicated to introducing interns and MGs new to Youth Education to our overall goals, programs and materials. The afternoon, targeted to MGs already familiar with Youth Ed programming, will provide ways to explore the programs with in-depth information and hands-on experiences. Lunch is available to all and will feature speaker Keri Sidle, Education Specialist from the Minnesota Department of Education. And, yes! This training fulfills continuing education requirements: 4 hours of CE Credits for the morning session, 3.5 CE Credits for the afternoon session and 6.5 CE Credits for those MGs who stay all day. [Sign Up Here!](#)

***And look at what the Junior Master Gardeners gave us in appreciation of our efforts!***

## What's Happening in Community Programs?

- A date has been set for the Community Garden Support Spring Workshop! Please mark your calendars for **Saturday, March 25th**, from **9:30am until noon** and stay tuned as more details emerge. You can find the sign-up [HERE](#). For those of you who are new to these workshops, click [HERE](#) for last spring's agenda and [HERE](#) for the agenda for the fall workshop. Note that on both you can get to the workshop materials through the links on the bottom of page 1.
- We will be forming a new EMG-HC Community Garden Support committee to steer us through the best way to provide the service. If you are interested in serving on the committee please let [me](#) know. I am shooting for our first meeting to be during the second week of March so that we can prepare for the workshop.
- You have noticed we opened up the opportunities that are repeats from last year. For the most part we just extended the date on the sign-ups. Doing so, however, keeps the same people on who signed up previously. Our presumption is that more people will want to continue rather than drop, so those who want to do

something different will need to drop off and sign up for another opportunity. There is reconfiguration work going on, too, and those will be opened up once we have them defined.

- We are receiving plenty of inquiries for new community programs opportunities. We will post them on SUG after we work through the intake process and define what level of service they are seeking. So keep your eyes open for them to pop up in SUG.

Let me know if you have any questions. Let's knock it out of the park this year!

## What's Happening in Communications?

We will always need articles, social media, and general gardening writings. If you have interest in any of these facets, please contact [Melinda Mattox](#) for details.

### Make sure you receive important program information

Keep current and **update your contact information** in the **database** so you receive important program information! You can re-subscribe to receive program updates by going **here**.

Some years ago, one of the fir trees that crop up all over our property each year popped up next to the front porch. I let it grow. Now it's a perfect Xmas tree, and I got my lights!*

### From Terry:

There are many county Master Gardener Programs holding "horticultural days." These are educational days open to the public; a few of our volunteers from Hennepin County have even presented (or will be presenting) at them. Below you'll find a list of the various opportunities coming up in 2017. You are welcome to attend one or more - -these events to count as continuing education (except the drive time!) Any questions, just let me know.

Here is an updated list of many of the upcoming events, some of which registration is already open! Others need a bit more time so keep checking back to the site or calling for updates.

## A message from Tim Kenny:

### *Save the date! 2017 Master Gardener State Conference: June 23 and 24*

This year's conference features tours, resources, networking, skill-building, and workshops! To receive an email notification when registration opens, email [leen0014@umn.edu](mailto:leen0014@umn.edu) with the subject MG2017.

Please welcome [Christy Marsden](#), our newest State Leadership Team member. Christy serves as the Extension Master Gardener Program Education Manager. She's a perfect fit, coming from the University of Wisconsin Extension, where she served as a county-based Horticulture Educator.

### Now...an invitation!!

We would like to invite anyone interested in being on the planning committee for the **2018 Master Gardener Regional Conference** to express their interest by sending an email to [mgweb@umn.edu](mailto:mgweb@umn.edu) with the subject line "2018 MG Regional Conference". Planning for this conference will begin at the State Conference this year!
