

Growing Connections

Join us for good, green fun!

Growing Connections is a **free** gardening program created exclusively for people living with early dementia, and for their care partners, offered by Hennepin County Master Gardeners in partnership with the Alzheimer’s Association.

No garden, gardening experience, or green thumb required!

**Thursday mornings
10 a.m. to noon
April 18 to May 23
Hopkins Activity Center**

33 14th Avenue North, Hopkins

Master Gardener volunteers lead casual, fun, informative classes featuring activities such as ...

- Planting herb seeds
- Creating a fairy garden
- Learning about pollinators
- Making your own hydroponic salad garden
- Arranging cut flowers
- Touring a local botanical garden

We also provide a light snack, and build in plenty of social time so you can connect with your classmates.

Flexible commitment: Each class stands alone, so you can attend all six classes or however many you choose.

To learn more or to register:

Email us at growingconnectionsmn@gmail.com, or contact the Alzheimer’s Association at alz.org/mnnd; 952.767.7570.

Come share in the joy of plants!
